Summary

As a seasoned Senior Chatbot Developer, I specialize in designing and implementing robust, efficient, and scalable conversational AI solutions. With 2 years of extensive hands-on experience in Python and expertise in leading platforms such as Rasa, Dialogflow CX, and Microsoft Bot Framework, I bring a deep understanding of AI-driven interactions. I thrive in dynamic, fast-paced environments and am driven by a passion for delivering innovative, high-quality solutions that exceed client expectations. My focus is always on leveraging cutting-edge technologies to transform complex challenges into seamless, user-friendly chatbot experiences.
