Mohd Shuja Khan

Conversational AI Specialist | ML Engineer | GenAI-LLM | Fine Tuning | RAG | Knowledge Graph | AutoGen | Bot Platforms | Azure Cognitive Serv. | FastAPI and .Net Core | CI/CD | Azure/AWS
Bengaluru, Karnataka, India

Summary

Conversational AI Specialist and GenAI Expert with 3+ years of experience in LLM Integration, Fine-tuning, RAG (Retriever-Augmented Generation), AutoGen, Knowledge Graphs, and NLP. Proficient in developing advanced multimodal conversational systems using Transformers, Seq2Seq, RNN, and CNN models. Experienced with platforms like Kore.AI, Cognigy.AI, Microsoft Bot Framework, and Azure Cognitive Services, along with hands-on expertise in Azure OpenAI. Skilled in leveraging AutoGen and Knowledge Graphs to build intelligent, scalable systems.

Full-stack development expertise with Python FastAPI, .NET Core MVC, and CI/CD pipelines across Azure and AWS. Experienced in containerization, deploying applications via Azure Web Services, AWS Lightsail, and managing projects with Azure DevOps.

Objective: To contribute transformative AI-driven solutions, foster collaboration, and deliver high-impact results.
